Dear Quonpa:

well here I am in Glasgow,
I come up here a couple days ago
on leave, the people are real nice
and am having a great time. I was
walking along the street yesterday
+ there was a fellow come up to me
and gave me a ticket for a
reserved seat in a show, it was
a play and he must of thought
that I would think it was old
fashioned by the explaining he had,
they got the idea that Canada is
much more advanced in the social
world. we arent having very good
weather its raining out now, I

suppose theres lots of snow at
The Cope by now. If one is it in
the woods this winter, I suppose
Alecky is meaning to go with the
woodcutter, did he hiplock the sheep
yet. Theres not much bombing

going on over here now I think
the weather isnt quite suitable
for the planes, I imagine it
will be hot enough in the spring
though, thats when the big push
is expected. I am sending a
book along with this letter its
kind of interesting and hope you
will like it. Well I think thats
about all for now so will close.

Love to all

Billy.

P. S. Tell Joan to hurry up and get better
and not to be running over to Bernies.
