

**The Cape George Development Association:
Annual Premise Report
Submitted by Albie Falkenham - February 28, 2002**

The year 2001 was a very exciting year for the Cape George Development Assoc: Everyone should be very proud of our accomplishments. Thanks to everyone.

The exterior of the building was completed replacing the windows that needed to be and also the round window above the door. The new deck was finished and installed . New rear door step with handrails. The main door was replaced with a new steel door and jam. Thanks to Jackie MacEachern for painting the new door at no charge.

During the winter of 2001 there was a new washroom finished including moving a wall to enlarge the area to accommodate a wheelchair, all new fixtures installed in the bathroom. The bathroom was rewired thanks to Bryden Wallace and Roddie MacKinnon.

There were new countertops installed in the kitchen area and new cabinets. Also new double sinks and taps. There was a new water pressure tank installed under the cabinets and again Roddie MacKinnon rewired the water pump to the new tank.

The interior was painted three coats of paint supplied by Central and Highland Building Supplies at no cost. The exterior was also scraped and painted just in time for the big school reunion.

Many thanks to Mary Hurst for donating the outdoor shed which came to good use. Andy & Scott Allan hauled the shed at no cost to us. Also James MacEachern placed the building in its present location. Thanks to Joe MacEachern for moving gravel to place the shed on.

Let's everyone keep working together and show the wonderful things a small group can do. We are so lucky.
